

# SOLAR-ERA.NET Transnational Calls 2013: PV1 and CSP1

## Common Scientific / Technical Evaluation Form (to be filled in by the expert)

Acronym / Project short title:
Project full title:
Proposal number:
Evaluator:

### Evaluation summary

Please carry out the evaluation on the following pages and summarise your results here. Comments for the scientific evaluation criteria should reflect the quality of the proposal as submitted by the proposers.

Criterion	Score
Potential impact and transnational value	
Scientific and technological excellence	
Quality and efficiency of the implementation and the management	
Total (max 15)	
Additional summarising comments:	

Scores: 0 – not addressed; 1 – poor; 2 – fair; 3 – good; 4 – very good; 5 – excellent.

**Criterion 1: Potential impact and transnational value:**

- Contribution to the expected impacts on the European / international level / Solar Europe Industry Initiative
- Appropriateness of measures for the dissemination and / or exploitation of transnational project results and management of intellectual property
- Clear definition and high value for national / regional subprojects (for national / regional evaluators only) and added value through transnational cooperation

Comments:

Score (max 5):

**Criterion 2: Scientific and technological excellence:**

- Soundness of concept and quality of the objectives
- Advances beyond the current state of the art
- Quality and effectiveness of the scientific / technological methodology and associated work plan

Comments:

Score (max 5):

**Criterion 3: Quality and efficiency of the implementation and the management:**

- Appropriateness of the management structure and procedures
- Quality and relevant experience of the individual participants
- Quality of industrial leadership
- Quality of the consortium as a whole (including complementarity, balance)
- Appropriateness of the allocation and justification of the resources to be committed (budget, staff, equipment)

Comments:

Score (max 5):
